Find and Connect to Thousands of APIs

- Discover APIs
- Test from your browser
- Connect using code snippets
- Manage APIs from one dashboard

3. Verify your email address

The screenshot shows a web browser window with the URL `rapidapi.com/auth/sign-up-verification`. The page has a white left sidebar and a blue right sidebar. The main content area is white and contains the heading "Verify your email address to continue". Below the heading, a message states: "We've sent a 6-digit verification code to humairahossain@hotmail.com. It will expire shortly, so please enter the code below to continue." There is a form with six input boxes for the verification code. Below the form, a link "Resend email" is provided. The right sidebar is blue and contains the heading "Find and Connect to Thousands of APIs" and a list of four features: "Discover APIs", "Test from your browser", "Connect using code snippets", and "Manage APIs from one dashboard".

- ✓ Connect using code snippets
- ✓ Manage APIs from one dashboard

4. Input name and organisation (I put cfg)

The screenshot shows a web browser window with the URL `rapidapi.com/auth/extra-info`. The page has a white left sidebar and a blue right sidebar. The main content area is white and contains the heading "Welcome!". Below the heading, a message states: "Finish setting up your profile so we can better tailor your experience." There are two input fields: "Full Name" and "Organization Name". Below the "Organization Name" field, there is a checkbox labeled "We need an organization account. Learn more". At the bottom, there is a blue button labeled "Done". The right sidebar is blue and contains the heading "Find and Connect to Thousands of APIs" and a list of four features: "Discover APIs", "Test from your browser", "Connect using code snippets", and "Manage APIs from one dashboard".

5. Click Subscribe to Test

The screenshot shows the RapidAPI interface for the Sentiment Analysis API. A pink arrow points to the 'Subscribe to Test' button located next to the 'GET Analyze (get)' endpoint. The page displays the API's popularity (9.7/10), latency (428ms), and service level (100%). The 'GET Analyze (get)' endpoint is selected, showing its description: 'Return sentiment analysis results with score for the given text.' Below this, there are input fields for 'Personal Account' (humi12), 'RapidAPI App' (default-application_6770974), and 'Request URL' (rapidapi.com). To the right, there are tabs for 'Code Snippets', 'Example Responses', and 'Results'. The 'Code Snippets' tab is active, showing a Node.js Axios code snippet.
